

## Guidelines for series approval of products for **Induction Stove**

<b>Basic Configuration</b>	<b>Up to a range of output power rating will be accommodated in the series, provided</b>
Induction Stove	<ul style="list-style-type: none"><li>• Same Input voltage rating.</li><li>• Same PCB design layout and class of construction.</li><li>• Same Enclosure except for differences of decoration.</li><li>• Power transformer: Same design and insulation system (if applicable)</li><li>• Same IP rating</li></ul>

### **Guidelines for Quantitative Selection of Samples**

- A series may consist of 10 models.
- Unless specified otherwise, one sample may be tested for each series.
- In any of the above consideration, worst case configuration from Safety Design perspective must be selected for testing.
